&

RUTGERS

School of Health Professions

We are delighted to share information regarding our agreement effective April 1, 2017, with Rutgers University School of Health Professions for a post-secondary joint program designed for MCVSD students to earn college credit while attending the Licensed Practical Nursing course.

This "Health Science Careers Joint Program" is an option for LPN students who are in good standing to sit for Rutgers exams in the following (4) subject areas to earn potentially (14) Rutgers credits:

- **Dynamics of Health Care in Society** (3 Credits)
- **Anatomy and Physiology I** (4 Credits)
- **Anatomy and Physiology II** (4 Credits)
- **Medical Terminology** (3 Credits)

This is an **OPTIONAL** program. Students participate primarily by attending the LPN program and:

- Registering with Rutgers in the Fall and Spring to take course exams in the Spring and Summer
- Exam fees are \$50 per course
- To receive Rutgers credit, students must earn a passing grade on the standardized exams developed by Rutgers
- Rutgers exams are administered on MCVSD campus
- In addition to the registration and exam fees, the cost per credit is usually 10% of the Rutgers post-secondary school tuition rate. For example, the current in-state tuition at Rutgers for (1) credit is \$359.00; qualified students who opt to enroll in this joint program, who register and pass the appropriate exams would pay \$107.70 in tuition for a (3) credit class.

More information will be provided at the start of your LPN Program in September
